at about 11:30 a.m. troops practiced firing with submachine guns at the firing ranges near Giebelfenn and, at about 1 p.m., other troops were firing with carbines near Resselbruch. Artillery fire was heard from the direction of Februitz. At about noon, 6 BA-64 armored scout cars and 6 joeps went toward Altes lager, coming from Hasenheidenberg via Highway No 103. Fetween 3 and 13 February, source determined that additional houses in the Robrbeck settlement were scheduled to be vacated for Sowiet families, who kept arriving at Elstal. Pany Sowietdependents were observed in the Doeberitz area.	
Conment. The information tends to indicate that, beginning in early February, the 1st Nech Div in Doeberitz, as other divisions in East Germany, conducted small-scale exercises, including firing with live argumition, in the vicinity of the post.  Another source, in 1953, also observed 122-mm field howitzers in the Adler	
Kaserne. Information in paragraph 1 supports the assumption that this installation is occupied by the 283d (?) Gds How Arty Regt of the division. The other installations appear to be occupied as previously.	25X1
